Syed Zulkharnain

Aurangabad, Maharshtra | P: 9172377686 | syedzulkharnain334@gmail.com

PROFILE

As an experienced Node.js Developer with over 3 years of hands-on backend development experience, I have completed my undergraduate degree. I aspire to specialize in full-stack development as a proficient MERN Stack developer. I have successfully completed 6+ projects, including developing RESTful APIs with Node.js and Express, designing MongoDB and MySQL database schemas, integrating payment gateways and authentication systems, and optimizing application performance. Notable projects include building a scalable e-commerce platform that increased sales by 40% within six months and creating a real-time chat application with Socket.io and React serving over 10,000 active users daily. I am passionate about leveraging technology to drive innovation and thrive in collaborative environments.

EDUCATION

Maulana Azad CollegeArt, Science & Commerce

Bachelor of Science   Feb 2019 - Apr 2022

- Bachelor of Science in Computer Science with Minors in enhancing Problem-Solving Skills and analytical thinking
- Relevant Coursework: C, C++, Software Engineering, Algorithms

Technical Skills:
     FRONTEND:- JavaScipt, HTML, CSS, ReactJS, Redux
     BACKEND:- NodeJS, ExpressJs, MongoDB, MySql, PostgreSQL, API Development
Deployment: AWS, CI/CD pipeline, FileZilla, Docker
Operating System: Windows, Linux
Version Control System: Git.

WORK EXPERIENCE

Redbytes Software Pvt Ltd.   Aurangabad, Maharashtra

Node js Developer   Aug 2023 – Present

- Championed Node.js development, shaping the evolution of our flagship product with groundbreaking features and unparalleled performance.
- Leading the implementation of Animal Veterinary, which resulted in improved efficiency and increased user engagement
- Collaborating with cross-functional teams to integrate cutting-edge technologies and optimize system architecture, resulting in improved scalability

DualSysco Pvt Ltd. (1.9 Years)   Aurangabad, Maharashtra

Full stack Developer   Nov 2021 – July 2023

- **Revolutionized Operations:** Leveraged expertise in Laravel and Node.js to spearhead a seamless transition to a paperless workflow. Developed an electronic booking system that optimized operational efficiency, reducing labor costs by 30% and office overhead by 10%.
- **Data-Driven Insights:** Utilized data analytics skills to extract valuable insights from 25,000 monthly active users. Informed strategic marketing and product decisions, resulting in a 2x increase in average app engagement time, a 30% decrease in drop-off rates, and a threefold increase in social media shares, enhancing brand visibility and user satisfaction.
- **Cross-Functional Collaboration:** Worked closely with cross-functional teams to streamline communication and improve project delivery times, achieving a 20% increase in team productivity.

PROJECTS

Vehicle Tracking Software
Backend Developer
- Developed efficient RESTful APIs to enable smooth client-server communication, ensuring scalability and reliability
- Implemented Socket.IO for instant messaging and live updates, enhancing user engagement and collaboration within the VT platform.

Animal Admin Module
Node js Developer
- Crafted streamlined RESTful APIs to facilitate seamless interaction between clients and servers in the Animal project, guaranteeing scalability and reliability.

Animal Veterinary App
Node js Developer
- Integrated Socket.IO for real-time communication alongside API development in the Veterinary module, ensuring seamless interactions and enhanced user experience.
